INTRODUCTION

Journal of Orthopaedics Trauma Surgery and Related Research (JOTSRR) has emerged as one of the preferred journals in the field of orthopaedics and its related research. The journal has successfully collaborated with more than 50 eminent Reviewers and is successfully publishing quality articles in the field of orthopaedics and trauma surgery.

For quality control in the peer-review process, we use an Editorial Tracking System, which is an online manuscript submission, review, and tracking system. Review processing is handled by members of the Journal's editorial board or outside experts; any citable submission must be approved by at least two independent reviewers before being accepted by the editor. Manuscripts may be submitted by authors and track the status of their submission through the system. Each editor, reviewer and author has their separate credentials which is forwarded to them through mail, to track the progress of manuscript.

We are really grateful for the invaluable effort of our board members in contributing both to our thorough companion audit framework and to the important evolution of the Journal. The Journal group incorporates global specialists of related logical distributions. To ensure distribution quality, all submitted papers go through several steps. The compositions are subjected to the usual companion audit. The limitless supply of paper serves as a starting point for screening. In any case, two free reference are sent out with the fitting papers. The Editor-in-Chief, who is responsible for reaching a final decision, considers the arbitrators' comments. Giving our

respected creators timely and constructive feedback remains a top priority so that their work can be made available to the rest of the world on time.

The COVID19 pandemic has wreaked havoc around the world, posing challenges for everyone. Several researchers and technicians are still coping with issues such as laboratory closures and online instruction while also dealing with the consequences of the pandemic scenario on their daily lives. Some of the editors, reviewers, and authors of a variety of periodicals are also doctors fighting the pandemic. As a result, delays are unavoidable during this pandemic, and we would want to express our gratitude. It is significant that our Editors and Editorial Advisory Board ought to address the themes we distribute as well as reflect nations from where our entries come. Moreover, JOTSRR has supported researchers in their early-career. Researchers/Scientist/Authors are invited to share their CV and research interest with us and become a part of the Reviewer Board Member, where they can work closely along with the Editors and Reviewers to provide the same high quality and quick review process.

If you are interested in joining our Reviewer Board, kindly send us your updated C.V. or biography, Research Interest, Recent Photograph (JPG) to mail id: orthotraumasurg@journalres.com. The reviewers anticipate working with our recently added individuals throughout the next few years. I invite all our board individuals and expand a warm greeting indeed to the individuals who have chosen to join our recognized rundown of researchers.
